

Grammar 8

Gert Webelhuth

University of Frankfurt

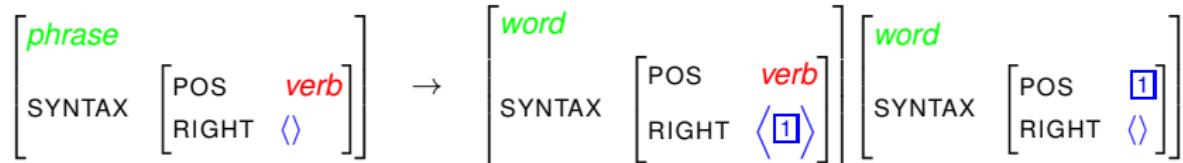

The phrase structure rules of Grammar 7

Sentences:

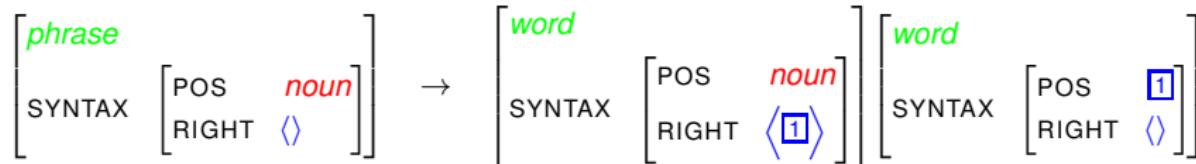

$$\begin{bmatrix} \textit{phrase} \\ \text{SYNTAX} \end{bmatrix} \quad \begin{bmatrix} \textit{sentence} \end{bmatrix} \rightarrow \begin{bmatrix} \textit{word} \\ \text{SYNTAX} \end{bmatrix} \quad \begin{bmatrix} \textit{noun} \end{bmatrix} \left[\begin{array}{c} \text{SYNTAX} \\ \begin{bmatrix} \textit{verb} \\ \text{RIGHT } \langle \rangle \end{bmatrix} \end{array} \right]$$

The phrase structure rules of Grammar 7

Verb phrases:

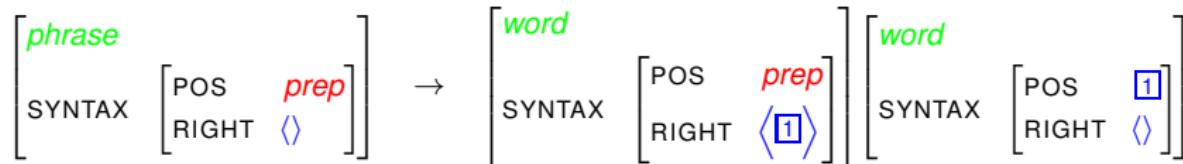

Noun phrases:

Adjective phrases:

Prepositional phrases:

Only a single phrase rule is needed

Phrases:

Allowing both words and phrases on the right-hand side

Phrases:

$$\begin{array}{c} \text{phrase} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle \rangle \end{array} \right] \right] \rightarrow \begin{array}{c} \text{word} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle 1 \rangle \end{array} \right] \right] \begin{array}{c} \text{word} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{1} \\ \langle \rangle \end{array} \right] \right]$$

$$\begin{array}{c} \text{phrase} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle \rangle \end{array} \right] \right] \rightarrow \begin{array}{c} \text{word} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle 1 \rangle \end{array} \right] \right] \begin{array}{c} \text{phrase} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{1} \\ \langle \rangle \end{array} \right] \right]$$

Words and *phrases* are both *signs*. This allows us to replace the two rules above by the simpler one below:

$$\begin{array}{c} \text{phrase} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle \rangle \end{array} \right] \right] \rightarrow \begin{array}{c} \text{word} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{P} \\ \langle 1 \rangle \end{array} \right] \right] \begin{array}{c} \text{sign} \\ \text{SYNTAX} \end{array} \left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \left[\begin{array}{c} \text{1} \\ \langle \rangle \end{array} \right] \right]$$

Bringing the sentence-rule into the same form as the phrase rule

Phrases:

$$\begin{bmatrix} \text{phrase} \\ \text{SYNTAX} \end{bmatrix} \rightarrow \begin{bmatrix} \text{word} \\ \text{SYNTAX} \end{bmatrix} \quad \begin{bmatrix} \text{sign} \\ \text{SYNTAX} \end{bmatrix}$$

POS RIGHT POS RIGHT POS RIGHT

P $\langle \rangle$ P $\langle 1 \rangle$ 1 $\langle \rangle$

Sentences:

$$\begin{bmatrix} \text{phrase} \\ \text{SYNTAX} \end{bmatrix} \rightarrow \begin{bmatrix} \text{word} \\ \text{SYNTAX} \end{bmatrix} \quad \begin{bmatrix} \text{sign} \\ \text{SYNTAX} \end{bmatrix}$$

POS RIGHT POS RIGHT POS RIGHT

$\langle \rangle$ *sentence* $\langle \rangle$ noun $\langle \rangle$ verb

Note: *sign* = *phrase* or *word*.

The phrase structure rules of Grammar 8

Sentences:

$$\begin{bmatrix} \text{phrase} \\ \text{SYNTAX} \end{bmatrix} \rightarrow \begin{bmatrix} \text{word} \\ \text{SYNTAX} \end{bmatrix} \begin{bmatrix} \text{sign} \\ \text{SYNTAX} \end{bmatrix}$$

$\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \rangle \right]$ $\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \rangle \right]$ $\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \rangle \right]$

sentence *noun* *verb*

Phrases:

$$\begin{bmatrix} \text{phrase} \\ \text{SYNTAX} \end{bmatrix} \rightarrow \begin{bmatrix} \text{word} \\ \text{SYNTAX} \end{bmatrix} \begin{bmatrix} \text{sign} \\ \text{SYNTAX} \end{bmatrix}$$

$\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \boxed{P} \rangle \right]$ $\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \boxed{1} \rangle \right]$ $\left[\begin{array}{c} \text{POS} \\ \text{RIGHT} \end{array} \langle \boxed{1} \rangle \right]$
